We are excited to inform you that UMHS has enrolled with STOPit!

[STOPit](#) is an online reporting tool designed to deter and mitigate bullying and cyber abuse, consisting of an app and a back-end incident management system for school administrators.

Our students will have access to the STOPit mobile app, which has two simple but powerful features.

Report can be used by students to report incidents to school contacts anonymously.

Get Help can be used to engage in anonymous two-way communication with school contacts.

Both Report and Get Help empower students to stand up for themselves and for one another. Students have the power to help put an end to harmful and inappropriate behavior they see online through social media and other means. They can use STOPit to reach out for help if they or a peer are facing a personal crisis or experiencing bullying, abuse, or are otherwise in need of assistance. Our goal with STOPit is to create a safer, kinder school community, both online and off.

No student information is needed to use STOPit. The only way personally identifiable information will be accessible through STOPit is if a student voluntarily includes it within the content of a report or message.

With your approval, please encourage your student to download the STOPit App for free from the Apple or Google App store. The Access code for our school is: UMHS

Thank you in advance for your support of this important safety initiative. More information and resources can be found online at www.stopitsolutions.com.
